## Education

### University of Nebraska-Lincoln

May 2016

Bachelor of Journalism

Informatics and Business minors

English and Spanish concentrations

GPA: 3.986

### Relevant Classes

- Python Programming for Data Science
- Data Structures & Algorithms for Informatics
- News Application Development
- Drone & Data Journalism
- Data Visualization
- Multimedia Journalism & Advanced Reporting

## Work

### The Buffalo News Data Visualization Intern - Buffalo, New York

June 2016 to Present

Build interactive, responsive elements including charts using D3 and Leaflet maps. Implement open source journalism programs, such as a graphics production system, for the newsroom.

### Nelnet Web Design Intern - Lincoln, Nebraska

May 2015 to Present

Created and edited HTML emails. Collaborated with the design team on WordPress website projects by editing PHP and writing clients' documentation. Produced responsive and 508-compliant code. Utilized GitHub for version control, BrowserStack for browser testing and Litmus for email testing. Coded time-saving Python programs to complete repetitive tasks.

### Freelancer - Lincoln, Nebraska

January 2016 to Present

Develop a Javascript-based housing application for UNL's student paper, the Daily Nebraskan. Design using Sass and Bootstrap.

October 2015

Covered five sessions of UNL's first Mobile Me & You conference. Wrote articles and live-tweeted the events.

### Omaha World-Herald Fellow - Lincoln, Nebraska

January 2015 to May 2015

Worked in the features department. Wrote three Living section centerpieces and various spot news articles.

### University Communications News Intern - Lincoln, Nebraska

August 2014 to December 2014

Edited university submissions for Associated Press style, organization and clarity. Wrote two articles.
